There year is 2021 and almost all the men in the United States have been hunted down, killed, exterminated or imprisoned. You are one of the few that has survived Hillary's Extreme Feminist Agenda. "Men are the cause of all wars, all rape, all crime! Men head the religious orders that bring chaos and hate to our nation!" her battlecry rang out during her inauguration speech. Any who spoke against her were immediately silenced. Slowly they were purged from all government offices, then mosques and churches. Eventually the men tried to fight back, but it was too late.

You and a few of the remaining males of the resistance are gathered now for a secret meeting, hoping to find some gap in Hillary's defenses that will hopefully stop her crusade against anyone with a Y chromosome.

"Well, let's begin then." Commander Greer announced.

The men sat together, quietly watching as three former leaders hung lifelessly from the gallows prepared especially for the event. Barbaric as it seemed, the young women gathered around for the spectacle seemed ebullient as the bodies of Bill Clinton, George Bush and Barack Obama swayed lifelessly above.

Commander Greer put his hand on Henry's shoulder then walked over to the TV, turning it off as he glanced outside through a dust-covered window. "I think we head west, toward Texas. I've heard there are pockets of resistance, albeit small. I think that's our best shot at some kind of a future" said the Commander as the other men agreed. It wasn't much hope, but it was all they had at the moment.
